ABOUT ME

Passionate Full Stack Developer with expertise in React.js, Next.js, Node.js, Express.js, PHP, and Laravel. Skilled in building responsive and scalable web applications using HTML5, CSS3, Tailwind CSS, Bootstrap, Redux, and REST APIs. Experienced in working with MongoDB and MySQL for backend development and database management. Focused on writing clean, maintainable, and performance-driven code while continuously improving technical and collaborative skills.

EXPERIENCE

Full Stack Developer

Adroit Light Solutions | 05/2025 – 12/2025

- Built web apps using React.js, Next.js, Node.js & Laravel
- Worked with MongoDB, MySQL & REST APIs
- Improved performance and responsive UI design

Frontend Developer

Its Tech World

01/2026 – 05/2026 | Gujranwala, Pakistan

- Working on ERP (Enterprise Resource Planning) software development.
- Developing user interfaces using React.js and Redux.
- Integrating REST APIs for ERP modules.

PROJECTS

ERP Management System – ITS Tech World

Contributed as a Front-End Developer to a robust ERP system built with React (TypeScript) and Redux. Designed and implemented reusable, responsive UI components and integrated RESTful APIs to manage complex business workflows. Emphasized code quality, performance optimization, and a consistent user experience across platforms.

Moods Analytica

Developed a responsive business meet and networking platform using Next.js. Focused on modern UI development, performance optimization, and cross-device compatibility to provide a seamless user experience for professionals and businesses.

Techizh

Developed a scalable web application using Next.js with reusable components and optimized performance. Implemented clean architecture and responsive UI to ensure fast loading and smooth user experience
